

## **PINpoint for BlackBerry® by Tenet Computer Group Shortlisted for Two Business Continuity Awards by CIR Magazine (UK)**

*Nominations highlight the features and uniqueness of the PINpoint solution geared at Crisis & Emergency Management for BlackBerry® smartphones*

**Toronto, ON Canada** – Tenet Computer Group Inc., a provider of a crisis and emergency management mobile application designed to make available fast and dependable Crisis & Emergency Management for BlackBerry deployments, announced it is a finalist in two categories for the CIR Technology Innovation Awards in 2011 in London, England.

As a finalist in the Best Business Continuity Management Planning Software of the Year, as well as the 'Most Innovative Solution of the Year', PINpoint was recognized for its use by companies across the globe to leverage their BlackBerry® infrastructure & stay connected at the most critical of times. The application has the flexibility to map WHO gets WHAT information and WHEN they receive it. PINpoint gives users access to the Emergency Response, BCP, and Pandemic plans. The accuracy and accessibility to contact lists, plans and procedures during an emergency situation will give the Incident Command Team the speed to share accurate information and allow for rapid decision making, and will prove to be of tremendous value to any organization.

Being shortlisted in these categories highlights Tenet's position as a market leader in today's ever-connected mobile world. A distinct benefit is the application's ability to provide accurate information. Following a defined schedule, PINpoint automatically collects the most up-to-date documents and contact information from internal or external systems, and pushes them to the BlackBerry devices you designate. Pushed information is automatically stored in your BlackBerry smartphones' cache memory, thus ensuring that it will be available when your users need it, even if your systems are down or unreachable, said Rick Jordan, Tenet's Director of Sales and Strategic Alliances.

The winners will be announced at the Gala Dinner on 25 May, 2011 at the London Hilton, Park Lane, London.
